

James Stephenson

James has worked in St. Petersburg, Florida as an unarmed officer providing amenity monitoring for an upscale condominium community. He has worked in Tallahassee, Florida providing unarmed building monitoring for a State of Florida office building and parking lot. James also provided armed security and protection for the Florida Supreme Court.

James received his Georgia Armed Security Officer and Private Investigator licenses in 2017 and has been providing executive protection for political candidates and others as well as providing surveillance and protection for businesses and banks.

James received his credentials to operate a security business in the State of Georgia in June of 2021.

In addition to his security and investigation career, James has worked in the Information Technology field as a programmer and system administrator since graduation from high school. He completed a degree in Business Management from Gwinnett Technical College and has a MCP certification from the Microsoft Corporation.
